

Sea of Cortez Liveaboard

September 29 - October 6, 2012

Once described by Jacques Cousteau as the "Galapagos of North America", the Sea of Cortez hosts an abundance of marine life to discover, including whales, mantas, and sea lions. Denver Divers will be embarking to the northern Sea of Cortez with Rocio del Mar for an adventure through this gem of North America. We will dive the untouched reefs and walls of the Midriff Islands while exploring some of the least visited sites in the northernmost Sea of Cortez.

Please contact us at 303-399-2877 or scuba@denverdivers.com to sign up or for more information.

Space is limited, so sign up soon! \$750 to reserve your space. Final payment due May 20, 2012
